THURSDAY, APRIL 5, 1906.

ATTORNEY GENERAL HADLEY, of Missouri, announced that John D. Rockefeller was now free to come out of hiding and to no longer fear his process servers. Rockefeller thus secures another victory.

The great moral reform wave that is sweeping over the country has reached the climax in the Brooklyn public library in the refusal of Mark Twain's "Tom Sawyer" and "Huckleberry Finn" to children under the age of discretion.

The bill to increase the pension of Mexican soldiers to \$20 per month has been favorably reported by the U. S. Senate. There are only 4,500 of those veterans left and the increase adds but a comparative trifle to the pension expenditure.

JOHN ALEXANDER DOWIE, who is very sick, has been deposed as religious leader of the "Christian Catholic Church in Zion" founded by him and has been suspended from membership also. His poor dupes are at last getting the wool from over their eyes.

The bill to free from internal revenue tax alcohol for use in the arts was reported to the U. S. House with only two dissenting votes, but the Standard Oil Co. is opposed to it and it is feared the Senate will put it to sleep in committee. The Standard opposes it because tax-free alcohol would compete as fuel with kerosene.

The Kentucky and West Virginia coal miners were striking to their jobs latest report, and consequently, there will likely be no scarcity of coal in this State, though prices are already on the advance.

Some of the Pennsylvania soft coal operators have granted the miners' demands and their mines will continue in operation.

Over a half million coal miners went on a strike Saturday in the anthracite and bituminous mines of Pennsylvania and the bituminous mines of Ohio, Indiana and Illinois and the southwestern district. It will prove very costly to the miners and the consumers, probably also throwing many employees of manufacturing concerns out of work, owing to lack of coal.

The Ohio legislature has increased the State saloon license from \$350 to \$1,000, limited railroad passenger fares to two cents per mile, made county officers salaried entirely, abolishing the fee system, repealed the inheritance tax law, gone away with prison contract labor, and established a censorship of bill posting and photograph records. Many a legislature has done worse than that.
